Research Reports

2015: CHEREAU, P., Innovation Strategy in R&D projects., submitted to European Commission.

2013: Chereau, P., Rapport Technique dans le cadre du programme Européen Health-2-Market., submitted to Commission Européenne.

Other Research

2017: CHEREAU, P., *Le Monde de l'Education - Entrepreneuriat étudiant : l'incubation c'est bien, l'accès au marché c'est mieux*.

Philippe Chéreau, professeur à SKEMA, appelle, dans une tribune au « Monde », les programmes d'entrepreneuriat à trouver clients, investisseurs et fournisseurs pour leurs « poulains », au-delà de l'enseignement de « l'art d'entreprendre ».

Depuis l'apparition des Pôles d'Entrepreneuriat Etudiant lancés en 2010, que l'on connaît aujourd'hui sous leur nouvel acronyme de PEPITE (Pole Etudiant Pour l'Innovation le Transfert et l'Entrepreneuriat), la plupart des établissements d'enseignement, grandes écoles et universités rivalisent d'initiatives et d'inventivité pour lancer les dispositifs d'incubation qui doivent faire naître les success stories de demain et revêtir lesdits établissements des habits très tendance de l'entrepreneuriat. Notre Président l'a annoncé ; la France est devenue une terre d'entrepreneurs et nos étudiants sont incités à construire le monde de demain en se lançant dans l'aventure de la création d'entreprise.

Et après ? Quel est le taux de survie de ces startups qui naissent sur les bancs de nos institutions et dans nos incubateurs ?

Regardons-nous réellement au-delà ? Avons-nous en fait envie de le faire ? Ne sommes-nous que des accoucheurs de jeunes pousses ?

Notre efficacité se mesure-t-elle uniquement en nombre de créations d'entreprises par équivalent-temps plein ? Ou avons-nous le devoir d'aller au-delà et d'alimenter ces projets avec le seul carburant qui vaille : le chiffre d'affaires et la croissance.

[Applied or Integrative/application Scholarship]

2015: CHEREAU, P., BERNASCONI, M., CIUSSI, M., & VIAN, D., *Roadmap to the Entrepreneurial Mindset and Toolkit*. You want to access the complete value chain of entrepreneurial tools? This on-line course provides an integrated and systemic toolkit that SKEMA Business School has tested on thousands of project tested over the past 15 years in postgraduate and executive programs.

The toolkit includes:

1. Building the scope of the project with ISMA 360
2. Designing the business model
3. The business plan
4. Working out your financial objectives
5. Checking your business plan for the pitch

This MOOC is free to use. Its content has been developed for the activities of Health-2-Market project, funded by the European Union's FP7 Programme for research, technological development and demonstration under Grant Agreement No 305532.

It is designed and delivered by practitioners and scholars of Entrepreneurship and Innovation.

The MOOC is presently used by about 6000 users
